		Design subjects included in the syllabus provide students an opportunity to research on the trends and forecast (with aid of Forecast Database available WGSN) for different seasons and arrive at the solutions using design methodologies. They also incorporate understanding of context, user-requirements and apply the sustainable design practices. Intermittent jury from faculty of other design background and designers from industry help the students to understand the clientele/industry requirement and refine	industry interactions bridge the gap between academia and industry, while internships and on-the-job training provide real-world experience. The teaching-learning process is continually enhanced through feedback mechanisms, the use of ICT tools, and faculty development initiatives to align with the latest global trends in hospitality education

		the design as per the inputs received. Workshops/seminars conducted aid in the students gain knowledge and skills from industry experts. Also, visit to the industries/project cites help the students understanding the theoretical aspects as applied in the industry. The student's work is also encouraged to be published in research medium. Skill enhancement courses like Financial management, entrepreneurship, fashion interiors aid in leaning inter-disciplinary learning.

		Generic electives like languages, hospitality related courses helps the student explore options beyond core and discipline specific subjects. Subjects on craft documentation help the students understand the process of design application from the guilds practicing the art. The documentation also aids in understanding the primary and secondary research process and also application of the craft in design development for the studios. Students also get an opportunity to be a part of consultancy projects along with the faculty
